Turn right out of 262 Torrisholme Rd and over Cross Hill, seeing the College to your left.

Continue past the wide tree. What type of tree?

1) **Oak**

Ahead, towards the square. No time to rest here but how many resting places provided?

Eventually emerge on the aforementioned "street".

Stride out to the right now, crossing what sounds like the drive of the 'replete copse'

20) **Fairlea (Ave)**

and across from here is a utility building where 21) **Parking** is forbidden and you may be in danger of

22) **Death**

We are now nearly at our farthest point but first cross the parallel lines, as I need to know when the first "iron horse" leaves for what sounds like an accessory for our canine friends. Where am I going to?

23) **Leeds**

I will be travelling next Monday morning by the direct route:

Notice distance of humps to the left?

30) **330**

and the humps to the right?

31) **80**
